## Professional Summary

---

I'm a creative fullstack developer, passionate about solving problems and bringing unconventional ideas to life. I'm experienced with OOP, Python, backend development, automations and technical support. I am passionate about building projects like game mods and a translation plugin for OSRS. I'm eager to grow within professional environments, to expand my skills in modern backend technologies.

## Work Experience

---

### Saenz Global LLC | IT Assistant | Roofing projects Admin (OCT/2024 – MAR/2025)

- Developed automations integrating CRM databases and internal communication tools, allowing for faster and consistent follow ups with leads. Ensured data consistency across platforms.
- Provided Tier 2 support, troubleshooting to ensure operational uptime.
- Managed documents (contracts, estimates, etc), leads intake, follow ups, emails and schedules

### Fiverr | Freelance Developer (NOV/2021 – AUG/2024)

- Developed and delivered 40+ custom apps, creating and animating avatars, integration modules for streamers. Primarily using Python and Tk/Tcl, for hardware tracking modules Packaging/UI.
- Managed the end-to-end project lifecycle, from communicating and contributing directly with clients to the delivery of software modules.
