Professional Summary

I'm a creative fullstack developer, passionate about solving problems and bringing unconventional ideas to life. I'm experienced with web development, with a strong background using Next.js, React and TypeScript. I also have experience developing projects focused on both client and server-side. I'm eager to grow within professional environments, to expand my skills in modern frontend technologies.

Work Experience

Saenz Global LLC | IT Assistant | Roofing projects Admin (OCT/2024 – MAR/2025)

- Developed automations integrating CRM databases and internal communication tools, allowing for faster and consistent follow ups with leads. Ensured data consistency across platforms.
- Provided Tier 2 support, troubleshooting to ensure operational uptime.
- Managed documents (contracts, estimates, etc), leads intake, follow ups, emails and schedules

Fiverr | Freelance Developer (NOV/2021 – AUG/2024)

- Developed and delivered 40+ custom apps, creating and animating avatars, integration modules for streamers. Primarily using Java for standalone modules, and Python, Tk/Tcl for Packaging/UI.
- Managed the end-to-end project lifecycle, from communicating and contributing directly with clients to the delivery of software modules.

Previous Experience

Veloce.Tech | Tier 1 Technical Support (DEC/2020 – MAR/2021)

IGCOM | Electronics maintenance technician (JUL/2017 – DEC/2017)
